This manual is protected by Federal Copyright Law, which provides for damages of up to \$20,000, as well as criminal fines and imprisonment, for unauthorized copying.

INTRODUCTION

Significant assemblies and components of the Basil® 6000 Series Tunnel Washers are illustrated and identified in this manual. The part number, description and quantity required for each usage are given. Each indentation in the description represents the assembly level. The Units Per Assembly column is specific for the given assembly or subassembly level.

This manual is provided to AMSCO customers and AMSCO service technicians to enhance the ordering of maintenance parts for the Basil 6000 Series Tunnel Washers. To order maintenance parts or identify hardware not found in this manual, please call AMSCO Customer Service at (800) 333-8848 for assistance.

The customer maintenance person should refer to the Service and Maintenance Procedures Manual (P-910000-019) for installation of parts which may require special attention or adjustments during installation.

How to Use the Illustrated Parts List

Determine the function and application of the part required. From the illustration, obtain the item number assigned to the desired part. Refer to the accompanying tabular list (usually on the facing page) for the AMSCO order number and description of the part.

IMPORTANT: To assure the correct part is purchased, verify the manufacturer and manufacturer catalog number listed in this document. Incorrect parts may not fit properly and/or may effect machine performance
